Agenda

Apr. 27 (Beginner/Awareness Level)

7:30 a.m. - 5:00 p.m.

Students will learn anchors, harness fit selection, operational commands and the knots that will be used over the upcoming days. Students will also be learning how to work the Main, Belay and M/A Lines to raise and lower a load.

Apr. 28 (Beginner/Awareness Level)

7:30 a.m. - 5:00 p.m.

Students will further their understanding of how to manipulate rope systems and learn how to package a patient in both a Stokes basket and SKED aStundnd LSP. Students will also practice rescues in confined spaces, at heights live grain engulfment through the training simulator.

May 4 (Intermediate/Operations Level)

7:30 a.m. - 6:00 p.m.

The level of difficulty increases for the different stations and instructors start to take a step back; having the students rely on each other.

May 5 (Advanced/Tech Rescue Level)

7:30 a.m. - 5:00 p.m.

The level of difficulty continues to increase for the different stations and the instructors will take yet another step back; at this point the students should be able to complete all station with little to no help from the instructors.

Agenda subject to change.
